Tabella ECTS	There are different methodologies/approaches that can be adopted under the academic recognition process, and conversion of the obtained marks to the UMinho assessment scale. This procedure is conducted by the Academic Coordinator of each field of studies. Please note that assessment scales are not absolute and the conversion of the host country for the Portuguese scale is relative. The ECTS grading scale should guide the procedure by considering the percentiles of the performance of all students who attended the curriculum units in question. Please refer here to more information about the ECTS scale of comparability.
