Any citizen of an EU country has the right to medical treatment, both urgent or necessary in exactly the same way as all Italian citizens.

Citizens from member countries of the European Union on a temporary stay abroad in Italy (for reason of study, tourism or work) must have one of the forms for medical assistance in Italy issued by the country of origin: the European Union card (TEAM) or its temporary substitute certificate (CTRF).

Students from member countries of the European Union

In order to make use of the services offered by the National Health Service they must register with the facility (hospital, first aid, general practitioner) by showing the TEAM card or the temporary substitute certificate.

Students from countries that do not belong to the European Union must remember that no official treaties exist as regards coverage of medical costs. They must take out an international insurance policy which covers all medical costs in the case of medical treatment or hospital stays which must be validated by the consulate. (<https://www.waitaly.net/>)

An alternative procedure may be considered to take out a policy in Italy, which includes coverage for urgent hospital stays: you can ask for more information about it at the Erasmus Office. Health insurance is a fundamental requirement in order to obtain a Permit of Stay.
